My initial thought was this book was going to be heavy reading but I'm glad to say I was seriously wrong – I read it within three days, I could just not put it down!

'Living Jesus' covers the topic of Jesus continuously alive in the world today. Themes include: Who Jesus is; Jesus at the centre of history; Jesus in the world of pain; Jesus in the end times and much more.

This book is written in a way that flows easy. The Bishop of Oxford is passionate about what he writes so drawing the reader deep into the book.

I loved this book when I read it, and would easily read it again. It helped my relationship with God and also given me a new understanding and approach of how I can answer some of the questions those who do not know Jesus have.

I think it is a great book to study leading up to Easter.
